SIGNS

SUBSTRATES

Corrugated Plastic

Corrugated plastic is a lightweight, dual-walled plastic material with a makeup similar to corrugated cardboard.

Available thickness: 3, 10mm

Available colors: white, yellow, other colors available by special order

Common uses: yard signs, special events, sponsorship signs

Pricing per square foot:

3mm

- 1 side, cut vinyl - \$5.50
- 2 sides, cut vinyl - \$7.50
- 1 side, printed - \$7.50
- 2 sides, printed - \$9.50

10mm

- 1 side, cut vinyl - \$6.50
- 2 sides, cut vinyl - \$12.00
- 1 side, printed - \$9.50
- 2 sides, printed - \$16.00

Aluminum Composite

Aluminum composite material (also known by its brand names, Polymetal or Dibond) is a durable sign material comprised of a polyethylene core sandwiched between sheets of .012 aluminum.

Available thickness: 3, 6mm

Available colors: white, black

Common uses: outdoor or indoor permanent signage

Pricing per square foot:

3mm white

- 1 side, cut vinyl - \$10.50
- 2 sides, cut vinyl - \$12.50
- 1 side, printed - \$12.50
- 2 sides, printed - \$14.50

3mm black

- 1 side, cut vinyl - \$12.50
- 2 sides, cut vinyl - \$14.50
- 1 side, printed - \$13.50
- 2 sides, printed - \$15.50

6mm white

- 1 side, cut vinyl - \$13.50
- 2 sides, cut vinyl - \$14.50
- 1 side, printed - \$14.50
- 2 sides, printed - \$15.50

6mm black

- 1 side, cut vinyl - \$14.50
- 2 sides, cut vinyl - \$15.50
- 1 side, printed - \$15.50
- 2 sides, printed - \$16.50

All aluminum composite orders subject to \$35 minimum.

Acrylic

Acrylic (also known as Plexiglass) is a shatter-resistant alternative to glass.

Available thickness: 3/16in, other thicknesses may be available

Available colors: clear, white

Common uses: lightbox panels, indoor decorative signage

Pricing per square foot:

3/16in

1 side, cut vinyl - \$12.50

1 side, printed - \$14.50

Aluminum

Our aluminum substrate is a solid aluminum panel

Available thickness: .080, .040, .063

Available colors: white

Common uses: permanent outdoor signage, GCAF signs
(see page 14)

Ask for pricing.

Corrugated Aluminum

Corrugated aluminum is a dual-walled plastic material with a makeup similar to corrugated fiberboard (cardboard).

Available thickness: 5, 10mm

Available colors: white

Common uses: outdoor permanent signage

Pricing per square foot:

5mm

- 1 side, cut vinyl - \$12.50
- 2 sides, cut vinyl - \$14.50
- 1 side, printed - \$15.50
- 2 sides, printed - \$18.00

10mm

- 1 side, cut vinyl - \$13.50
- 2 sides, cut vinyl - \$14.50
- 1 side, printed - \$17.50
- 2 sides, printed - \$20.00

PVC

PVC is a lightweight, versatile, durable plastic substrate.

Available thickness: 3mm, 6mm, roll

Available colors: white, other colors available by special order
Common uses: outdoor and indoor permanent signage, routed letters

Pricing per square foot:

3mm

- 1 side, printed - \$11.75
- 2 sides, printed - \$13.75

6mm

- 1 side, printed - \$14.00
- 2 sides, printed - \$16.00

Roll

- 1 side, printed - \$9.50

(material can yellow with age, cut vinyl not advised)

Foam Core

Foam core (foam board) is a lightweight, paper-faced polystyrene material.

Available thickness: 3mm

Available colors: white

Common uses: temporary indoor signage

Pricing per square foot:

3mm

1 side, printed - \$11.00

2 sides, printed - \$

Ultra Board

Ultra board is a lightweight, PVC-faced material.

Available thickness: 3/16, 1/2in

Available colors: white, black

Common uses: indoor signage

Pricing per square foot:

3/16in

1 side, printed - \$13.00

1/2in

1 side, printed - \$15.00

Application Options

Digitally printed vinyl

We print on rolls of adhesive-backed vinyl with latex inks. This process allows us to print full-color photos, logos, and other designs. The adhesive-backed print is then applied to your substrate of choice to create a unique sign solution. All of our prints are laminated with a UV-protectant laminate (gloss, matte, and other options available).

Cut vinyl

We have a wide range of vinyl colors to choose from. We use a vinyl cutter that cuts your design out of the roll of vinyl. These graphics can then be applied to your substrate of choice.

Installation Options

Post mounting

Most outdoor signs can be mounted to a post and installed in-ground at your location. There are several post options when it comes to mounting your outdoor sign.

Pressure-treated post (PTP)

These posts are chemically treated to ward off insects, microorganisms, and fungal decay. They can be left natural or painted to match your sign. We offer decorative wooden caps to top the post as well as PVC sleeves and caps that cover the posts and offer an added level of protection.

Available thickness: 4x4"

Pricing:

U-channel post

These posts are most commonly used for traffic signs. Their pre-drilled holes make mounting different size signs simple.

Pricing:

Aluminum tubing

These square aluminum posts come in a variety of sizes to fit your project. These posts are typically painted to match your sign.

Standoffs

Standoffs offer an elegant way to display directional signage, photos, and other signs. This system typically works better for small or medium signage. Since these create a gap between the sign and the wall, this creates a unique opportunity for second-surface* printed or cut vinyl graphics.

*second surface: graphics applied to the reverse side of a clear substrate. This gives the product the advantage of having a clear substrate to further protect the image.

Stands

We offer three main types of signage that can be used for outdoor temporary yard signs.

Wire Stand

These temporary signs are used for corrugated plastic. Price: \$2.00 each

Steel Stand

These heavy duty signs are used for corrugated plastic. Price \$7.50 each

Banjo Frame

Any outdoor sign substrate can be bolted to this sign. Price: \$16.50 each

Specialty Signs

V-cut

This process utilizes a router to cut your custom lettering or design into sign foam material. The panel is then painted to match your color scheme. Custom pricing available.

Dimensional letters

This process utilizes a router to cut letters and shapes out of PVC. These letters are then painted and can be mounted directly to your wall or with standoffs. Custom pricing available.

Monument signs

We can custom build masonry signs to your specifications. We can also order a variety of poured foam monument signs that are routed and painted to your specifications. Ask for custom pricing.

Lightboxes

We can order custom-size single and double sided LED lightboxes. We can design and create custom acrylic faces and install the lightbox on your building, post, or pylon sign. Ask for custom pricing.

Zip trac can be applied to your acrylic faces. We can also order changable copy in a variety of sizes.

Channel letters

Make your storefront more eye-catching with custom channel letters. Ask for custom pricing and size options.

GCAF signs

Extreme Images is a certified dealer of Georgia Clean Air Force signage. GCAF allows for 2x3ft or 3x4ft signs. We can create these single or double sided on regulation .063 aluminum.

- | | |
|-------------------|--------------------|
| 2x3ft | 3x4ft |
| 1 side - \$75.00 | 1 side - \$150.00 |
| 2 sides - \$95.00 | 2 sides - \$150.00 |

Real estate sign package

For realtors, we offer special pricing on sign packages. Each sign package includes 2 single sided 30x18" printed sheets of PVC attached back to back on a custom real estate post.

Discounts are given according to the quantity of signs per order.

QTY: 1-5
\$44.50 each

QTY: 6-14
\$39.50 each

QTY: 15 or more
\$34.50 each

Trade show displays

We can custom-design trade show popup displays, table throws, retractable banners, literature displays, flags, and more! Ask for pricing.

GRAPHICS

Graphic types

Digitally printed vinyl

We print on rolls of adhesive-backed vinyl with latex inks. These prints can then be cut out on our vinyl cutter, creating custom-shaped decals. All of our prints are laminated with a UV-protectant laminate. Aggressive-adhesive vinyl available upon request.

Printed only
\$9.50/sf

Printed & installed
\$12.50/sf

Laminate Options

Gloss

Matte

Dry-erase

Floor lam

Cut vinyl

We have a wide range of vinyl colors to choose from. We use a vinyl cutter that cuts your design out of the roll of vinyl. These graphics can then be applied to your window, door, vehicle, or other smooth surface.

Vehicle wraps

Mobile advertising

We can create custom designed full or partial vehicle wraps. Our certified installers use cast vinyl specifically made to adhere to the contours of your vehicle. Wrapping your vehicle is a great way to advertise your business wherever you go! Ask for custom pricing.

Perforated window film

Versatile graphic solution

Perforated window film is a printable vinyl with small holes that allows light to pass through. The printed graphic is visible from one side, but not the other side; the other side remains partially see-through. When applied to storefront windows, not only does perforated window film function as exterior advertising, but it can also cut down on energy costs as it blocks some sunlight from entering. When applied to vehicle windows, perforated window film can provide an extra layer of security as others cannot see into your vehicle.

Printed & installed
\$13.50/sf

Static cling

Repositionable printed designs

Static cling is a printable vinyl that, with proper care, can be used and reused. The vinyl uses static electricity to cling to your windows from the inside or outside of the glass.

Printed
\$9.50/sf

Magnets

Reusable vehicle advertising

We can create custom-designed printed or cut vinyl magnets to be used as removable mobile advertising. The standard size for vehicle magnets is 24x18;" pricing for custom sizes is available upon request.

Printed
\$58.00 each
or 2 for \$108.00

Cut vinyl
\$38.00 each
or 2 for \$65.00

Alumigraphics

Graphics that go anywhere

Alumigraphic vinyl is a foil-based print media that comes smooth or textured. The foil inside this unique material allows it to be applied to almost any surface including brick, asphalt, and cement. Custom pricing available upon request.

BANNERS

Graphic options

Digitally printed banners

We print on banner material with latex inks. This option can be used if you would like multiple colors and/or (non-copyrighted) photos on your banner.

Printed
 1 side - \$7.50/sf
 2 sides - \$10.50/sf

Printed team banners
 1 side - \$6.00/sf

Cut vinyl banners

This more economic option includes text and graphics in one color on a white background.

Cut vinyl
 1 side - \$5.50/sf
 2 sides - \$9.50/sf

Finish options

Hem & grommet

All of our banner pricing includes hems along all four edges and grommets in the corners and every 2ft along the outside edge. The hem helps to protect the banner from fraying, and grommets allow the banner to be hung with rope, twine, or zip ties.

Pole pockets

Pole pockets can be substituted for grommets if the banner will be hung from a horizontal pole instead of tied off.

Retractable banner stands

Event solutions

We can order retractable banner stands in 24, 36, 48, and 60in widths. These mobile banner stands are perfect for trade shows and special events. Ask for custom pricing.

OTHER SERVICES

Canvas prints

A personal touch

Let us print and frame a cherished (non-copyrighted) family photo. Custom canvas prints make great gifts for the holidays!

Printed only
\$15.50/sf

Printed & framed
\$20.50/sf
